

Alfresco[™]
Open Air Culinary Systems

Welcome

For decades, the founders of Alfresco have been designing and manufacturing commercial kitchen equipment for many of the world’s finest restaurants and hotels that rely on the highest quality products.

In the late 90’s, Alfresco Open Air Culinary Systems was launched, offering a complete line of restaurant-inspired residential outdoor kitchen appliances; an entirely new level of luxury never before available for the home.

From the beginning, Alfresco has focused on producing high-performance products of the likes that have never occurred in the outdoor cooking industry. This dedication to quality in manufacturing, innovation, value, and customer satisfaction continues to shape the Alfresco brand, and set the standard for what the ultimate outdoor cooking experience should be.

Inspire yourself. Nurture your culinary genius. Alfresco appliances will make any professional chef feel right at home, as well as motivate anyone who wishes to produce masterful creations like a pro. If you can imagine it, you can create it with Alfresco.

YOUR PASSION
IGNITED™

CULINARY PERFORMANCE AMPLIFIED

For passionate foodies, cooking equipment becomes an extension of the creative mind. But no matter how gentle your touch, if your grill can't manage the subtle control necessary to make a dish go above and beyond, then the appliance you're using doesn't qualify.

Think of a high-performance sports car; all of the horsepower behind the engine means nothing if you can't control it with precision. The Alfresco Luxury Grill is a fine-tuned machine with proprietary features that will fuel your passion and potential, allowing you to make truly extraordinary meals.

First infrared burner combined with stainless steel burners (Sear Zone™ was born).

First cantilever canopy with hidden coil spring assist.

First integrated rotisserie motor.

First full-length, extra-wide, deep under-mount smoker with a dedicated burner.

First and only air-cooled front breathing control panel.

First easy-to-remove LED light panel.

First manufacturer of the largest professional grill at 56".

First and only "Fire and Ice" grill on a refrigerated cart.

First to produce a Versa Power™ burner.

First to produce a stainless steel convertible refrigerator that accommodates a full half keg.

First and only built-in under-grill/under-counter refrigerator.

First grill company to produce their own refrigeration designed on a commercial platform.

First to produce, and still offers the largest selection of "plug-and-play" drop-in grill accessories.

First to produce a full sealed pantry in both under-grill (low) and under-counter (tall) models.

First to incorporate sink design and sink accessories into outdoor kitchens.

First to produce a trash chute.

First to produce the widest selection of built-in island accessories.

First to produce an outdoor pizza oven for both countertop and built-in applications.

First to offer FREE design services.

First outdoor plating station.

First to introduce the concept of outdoor kitchen zones.

Cold Smoke Roasting

ALFRESCO LUXURY GRILL DETAILS

SIGNATURE TASTE™ INTEGRATED SMOKING SYSTEM

MAKE A TASTEFUL IMPRESSION.

Adding unique, real-smoke-flavors to your outdoor cooking is surprisingly simple. Every Alfresco grill comes equipped with our state-of-the-art Signature Taste™ integrated smoking system, allowing for unparalleled originality. From "smoketissing" to cold-smoke roasting, no other grill in the world offers more control, power, and versatility. With a dedicated stainless steel burner, our exclusive Signature Taste™ smoking system opens a whole new world of flavors for the aspiring outdoor chef. The drawer holds large chunks of wood and herbs, and linear diffusing vents naturally eject smoke at 200° to the food zone (right).

ALFRESCO'S EXCLUSIVE ACCUFIRE™ HEAT SYSTEM

At Alfresco, we understand that precision-directed power is essential for any true high-performance culinary appliance. You can be confident in the control and accuracy built into our 18SR stainless steel Accufire™ grilling engine. This commercially-inspired fire delivery method creates some of the highest cooking temperatures in the industry, and serves as the suspension system for "the ultimate grilled food" coming from your customized outdoor kitchen. With dual rows of corrosion-resistant, clean-combusting, double-lanced ports and a lifetime warranty, this grill is built to last a lifetime.

OPTIONAL SEAR ZONE™ FOR INFRARED COOKING

Savory meats rely on quick, intense heat. The Alfresco Sear Zone™ Infrared Burner amplifies flavors for virtually any entrée you plan to grill, locking in the juices of a filet mignon, chicken breast, or even a seafood shrimp skewer. This high-tech Sear Zone™ burner reaches 1500°F in four minutes, and cooks 50% faster with virtually no flare-ups. The special "V-shaped" flavorizer cooking grate also captures the natural juices, fats, and flavors, then caramelizes them to the food for delectable, mouthwatering flavor. This means savory, melt-in-your-mouth proteins, all at your control.

All of our products are designed by commercial appliance experts and built by grill industry veterans. Made from all commercial-grade 304, 18-8 stainless steel with all heli-arc hand-welded seams and no mechanical fasteners, it's no wonder Alfresco is recognized as the best-of-the-best (*right*).

ELECTRO-POLISHED STAINLESS STEEL COOKING GRATES

Sitting over the briquette and "U" burner sections, these ultra-premium grates are made from heavy-duty 3/8-inch round stainless steel rod, and have a special nonstick electro-polished finish.

EXCLUSIVE **SAFETOUCH™** AIR-COOLED CONTROL PANEL

Our exclusive SafeTouch™ design creates an insulating barrier of ambient air flowing between the front panel and the grill firebox. This results in all of the control components staying safe to the touch. We like to say we are "Grandchild Safe!"

ERGONOMIC CONTROLS

Easy-to-reach, stainless steel push-button ignition, lighting, and rotisserie controls are ergonomically integrated into the front control panel.

PRECISION-POINT™ CONTROL PANEL LIGHTING

Precise LED front panel lighting projects rich amber beams of light exactly where you need them (*left*).

EXCLUSIVE DURASLEEVE™ HEAT-PROTECTED WIRING

Alfresco's exclusive wire protection system encapsulates the full length of every wire and connection point with a 600° heat-resistant silicone sleeving, ensuring years of unmatched weather-resistant performance.

NICKEL-PLATED KNOBS AND BEZELS

Like the steering wheel of a high-performance race car, Alfresco grill knobs are designed for precise maneuvers. Placed at exacting positions, these corrosion-resistant cooking controls have been designed to specifically address ergonomics and accuracy for the outdoor culinary chef.

REFRACTIVE CERAMIC 5-WAY HEAT DISTRIBUTING BRIQUETTES

Eliminates hot and cold spots, making the effective grilling area 100% of the grilling surface. High-density composite material in a flat top pyramid-shape, with a heat-holding cavity underneath, delivers intense heat to the cooking surface. Radiant tray locks briquettes in place.

HALOGEN RADIANT LIGHTING

Designed to focus on the subject, Alfresco's Integrated high-intensity halogen lights angle slightly toward the center of the cooking surface, creating bright, even illumination. The light lenses are easily removable without the use of tools.

INSET ROTISSERIE BURNER

All Alfresco grills come with a flush-mounted rear ceramic infrared rotisserie burner. In conjunction with our integrated Mega-Drive™ motor system, rotisserie cooking perfection has never been easier. From whole chickens and ribeye roasts, to cornish game hens and ribs, the Alfresco rotisserie cooking system supports and nurtures the delicate touch required to create a perfectly tender and caramelized entrée. *(left).*

EXCLUSIVE HIDDEN AND INTEGRATED MEGA-DRIVE™ ROTISSERIE SYSTEM

This unique, chain-driven, whisper-quiet food rotation system is perfectly smooth and consistent, and is designed for ultra-roasting from the smallest to the largest of entrées. We build the Mega-Drive™ directly into the grill assembly making it weather-resistant, and allowing for hassle-free, delicious roasted foods.

EXCLUSIVE EZ-LIFT™ HOOD-ASSIST SYSTEM

Save your strength. Alfresco's integrated and commercially-inspired spiral torsion hood-assist system offers ultra-smooth, single-finger hood lifting and closing while you cook. Made of non-corrosive stainless steel, the EZ-Lift™ hood design is built for many years of reliable performance.

ADJUSTABLE FOOD WARMING AND GRILLING RACK

This versatile, three-position adjustable warming rack is ideal for above-the-grates cooking, food holding, and warming,

56" LUXURY ALL GRILL

GRILL ACCESSORIES

Variety is the spice of life. With Alfresco's extensive line of grill accessories, you have countless opportunities to express your culinary creativity. From searing, steaming, and frying, to baking, Teppanyaki, and rotisserie, there's something for every taste and any occasion. *(Grill shown with optional wind guard)*

PIZZA OVEN PLUS

Alfresco Pizza Oven Plus ovens are built to be the most versatile and highest-performing gas-fired ovens in the world. Our material, design, and manufacturing process revolves around creating a uniquely powerful oven that preheats in 15 minutes and can reach up to 1,000° F, allowing you to bake, roast, iron-skillet sear, and of course, cook perfect three-minute Neapolitan pizzas.

HIGH-TEMPERATURE COOKING

Truly great pizza requires temperatures that conventional ovens can't reach. The Pizza Oven Plus reaches up to 1,000°F to give you the ideal balance of thin, crisp base, and perfectly charred artisan crust.

AMAZING CULINARY CREATIONS

With a preheat time of only 15 minutes, the Pizza Oven Plus is great for cooking pizza, baking, broiling, roasting, and just about anything else you can do in a regular oven, but faster and with better results!

PIZZA AND SO MUCH MORE!

Cooking 3-minute Neapolitan pizzas directly on the hearth, Prime New York steaks pan-seared in an iron skillet, herb and spice rubbed pork chops in a ceramic baking dish; all can be done in Alfresco's Pizza Oven Plus!

PIZZA OVEN PLUS

- Fireplace-like gas log absorbs and radically accelerates preheat time as it distributes heat up to the ceramic ceiling slab for intense top-down heat
- 3/4" thick high-quality ceramic slab hearth and ceiling for even, intense, radiating heat
- All 304 18-8 heli-arc welded stainless steel
- Full 8.5" opening with stainless steel-framed glass doors
- Countertop rear exhaust
- High-performance tube-log burner
- High-tech, high-heat ceramic infrared hearth burner
- Removable hinges/doors
- Double-walled removable top
- 456 sq. in. of cooking space
- Halogen oven light
- Alfresco's exclusive natural air-cooling plenum keeps control panel cool to the touch
- Available in LP or Natural Gas

 (Also available on select cart model grills)

OUTDOOR REFRIGERATION

Keep it chilled where you need it with Alfresco's commercially-inspired refrigeration systems. From self-contained under-grill units and single-door refrigerators with optional Keggerator conversion kits, to our exclusive Versa Chill™ system, you won't find a cooler, more efficient set up anywhere.

Alfresco's refrigeration can maintain extremely cold internal temperatures in very hot outside temperatures.
(Results may vary due to conditions)

VERSA CHILL COUNTERTOP REFRIGERATION

Commercial top-access cooler features state-of-the-art frost wall technology, creating an Arctic blanket of frigid cold air.

- 1,200 BTU all-weather refrigeration system
- Insulated tilt-up and removable stainless steel cover
- Commercial polyurethane shot-in-lace foam insulation
- Three removable NSF food pans
- Slideable intermediate stainless steel wire shelf
- 1" brass drain for easy cleanup
- 101 lb. ice capacity

AVAILABLE MODELS

ARDI – Versa Chill Built-in Model

ARDIC – Versa Chill Cart Model (*not shown*)

ADD A BUILT-IN TO YOUR ISLAND FOR SUPER CONVENIENT COLD STORAGE

1. Cold pans for perishable condiments
2. Thermostat-controlled temperature from the teens to 56° F
3. Half-width mid-depth shelf for lower level access
4. Exclusive commercial frost wall technology
5. Frost wall creates an Arctic blanket of frigid cold air

Use as a bottle cooler, mug froster, martini freezer, fresh fruit smoothie and juice center, deli-prep center, burger topping/condiment bar, salsa bar, bottle/ice bath, wine cooler, keg chilling, and dessert bar.

Libation, Smoothie Juice Bar

Ice/Bottle Bath

All-Provision Glass Chiller

Keg Chilling

SEALED DRY PANTRIES

Store dry goods, cookware, tools, and more in a complementary sealed environment, safe from weather and pests. With five size options to choose from, sealed pantries feature drawers and adjustable shelves. Commercial-style insulated foam gasket on the cabinet face makes for a tight seal, and a new integral rain gutter diverts water around and away from the cabinet.

- Pans have removable stainless steel lids

AVAILABLE MODELS

AXEWD-30 – 30" Electric Warming Drawer

DESIGN SOLUTIONS BY ALFRESCO

LET ALFRESCO’S PROFESSIONAL DESIGN TEAM HELP MAKE YOUR OUTDOOR DREAM KITCHEN BECOME A REALITY.

Visit the design services page on our website www.alfrescogrills.com/inspiration-planning/design-services to learn more about how Alfresco can assist you in planning your outdoor culinary space, and the requirements for this complementary service. Use the online form to provide your local authorized Alfresco Dealer with the necessary information, and the dealer will submit your project to Alfresco’s professional design experts.

TIPS FOR DESIGNING THE PERFECT OUTDOOR KITCHEN

When designing commercial kitchens, the layout is broken into “zones”, and the location of each zone is strategically placed in order to create harmony in the operation to maximize efficiency. It’s also important that each zone is ergonomically intuitive; having all the essential components confined to the zone, and keeping everything in arms reach from point of stance. Alfresco has designed all of the pieces necessary to create a fully-functal outdoor kitchen - one in which any professional chef would feel right at home.

TIPS TO CONSIDER WHEN PLANNING:

- The ideal location for your outdoor kitchen
- Number of guests you would entertain on a normal basis
- Are utilities available at the location (e.g. water, gas, electricity)
- Orientation of outdoor kitchen to house, view, outdoor room, pool
- Orientation to the sunset (be sure seating doesn’t face West)
- Prevailing wind direction (avoid positioning grill backside to wind)
- Seating should not be positioned at backside of grill
- Island enclosure material (insulated jacket required)
- Refrigeration, sealed dry storage, and sink eliminates trips in and out
- Let Alfresco’s Design Solutions professionals assist in your design
- Remember, your Alfresco dealer is a great source for ideas and knowledge, helping you to create your dream Alfresco kitchen.
